

Sealed Air Fill-Air[®] NTS

Table Side Packaging System

The simple solution for space-saving inflatable packaging

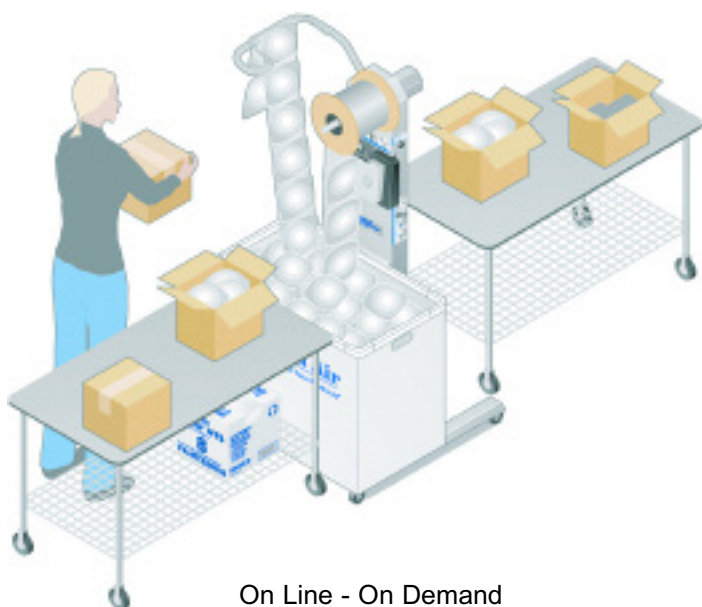

Fill-Air® NTS The most versatile

- **Portable table side convenience**
Installs beside or behind the workstation
- **Easy to use**
There are no adjustments, just turn it on
- **All-electric**
Uses a standard 220/240 outlet.
No compressor required
- **Compact**
Fits easily into any packaging area freeing up packaging table space
- **Automatic refill**
A sensor automatically keeps the cushion bin full
- **Cushions on-demand**
Ensures cushions are readily available for packers
- **Modular Components**
Servicing is quick and simple
- **Excellent Protection**
Clear inflatable cushions create clean, neat packages
- **Quick & Easy To Load**
Simply slide the roll of film onto the mandrel and feed the edge into the rollers

table side packaging system

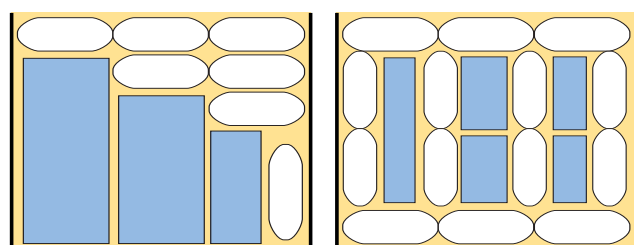

Fill-Air® Inflatable Packaging Applications

The continuous chain of air cushions is pre-perforated and can be used in varied applications such as:

Top void filling.

Packing around the product.

Top and sides void filling.

Packing between products.

- **Outstanding protection**

Provides optimal protection with a minimum of materials. Your products travel in complete safety and well protected, surrounded by air-filled cushions.

- **Clean and lightweight**

With Fill-Air®, no more clearing up of messy or bulky packaging material like loosefill or crumpled paper. Light as air - substantially reducing the weight of your packages, and therefore your shipping costs.

- **Customer satisfaction**

Your customers receive their goods in perfect condition in a professional, clean aesthetically pleasing package.

- **Protecting the environment**

The initial cushions can be re-used. When deflated, the bags occupy only 1% of their initial volume. The polyethylene based material can be easily recycled.

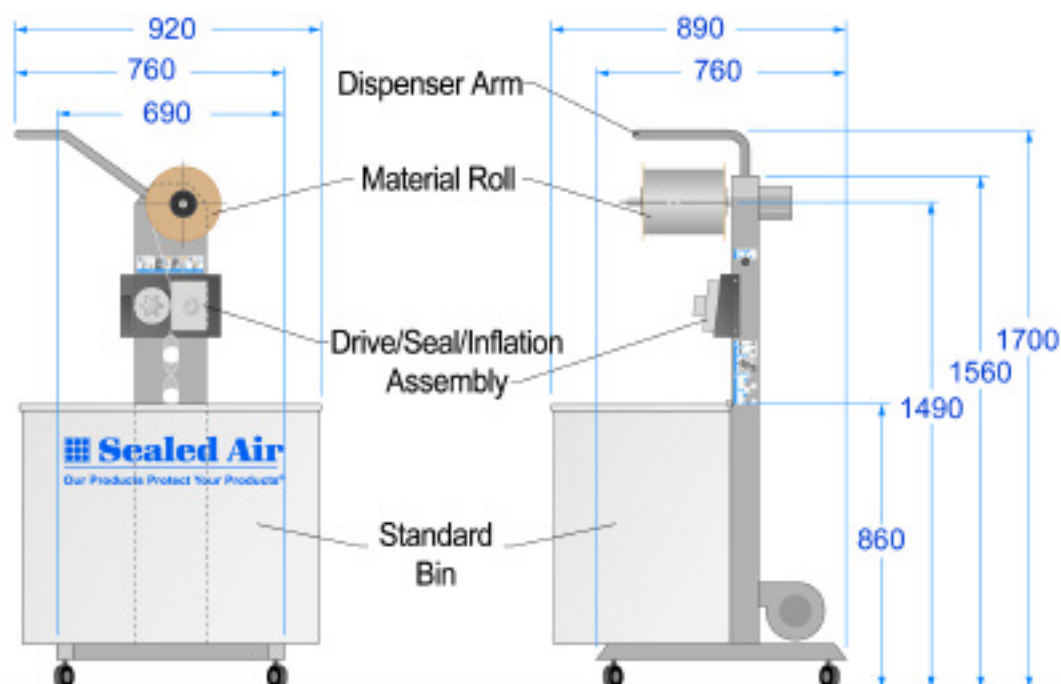

Fill-Air® roll sizes

References	TS130	TS200	TS300
Perforated in MM	130	200	300
Roll Widths in MM	200	200	200
Roll Lengths in M	305	305	305

Specifications

Overall Size with Bin in MM
Length 920
Width 890
Height 1700
Weight 42kg
Electrical
220/240 Volt Single Phase
Standard Cushion Sizes in MM
200 x 130
200 x 200
200 x 300

Creating World-Class Packaging Solutions

Sealed Air is a leading global manufacturer of a wide range of fresh food, protective and specialty packaging products. Reaching nearly 80 percent of the worlds population, many Sealed Air brands are among the most respected names in their markets.

Our products protect and preserve our customers' products from the plant and warehouse through the rigors of the distribution chain. Many Sealed Air products also provide an appealing merchandising presence for retail display.

Sealed Air's industry-leading investment in research and development and constant focus on World Class Manufacturing principles allow us to continue to deliver innovative packaging solutions that add measurable value to our customers' business around the world.
